LI district promises to enroll immigrants NEWSDAY; Mar 1, 2016

Westbury settles to guarantee right to education. All children ages 5 to 21 are guaranteed an education, regardless of their immigration status, by the U.S. Constitution and state law. Editor's Thoughts: Every teacher and administrator I have ever met has stood fervently behind guaranteeing every child the right to an education. What our politicians have to embrace is that in order to assimilate hundreds and sometimes thousands of unexpected, high need, students into a district, an extraordinarily high level of unexpected expense in manpower, money and facilities must be met...and met quickly...even though this burden was not part of the voted on budget. So Mr. & Mrs. Politician, while you so honorably, adamantly and most of all visibly "fight" for the rights of these "new students," you must also clinch tightly to the associated responsibility YOU have to the existing students and their educators by providing the money necessary for them to absorb those new students and their new found rights.
