Nisha Gaetano Tantillo

10 hrs

Who do we contact about changing the light bulbs in the Stop and Shop shopping center in Coram. I just realized that is why it is so dark there at night. I think this is a dangerous situation. It would help if it was all lit up like the Selden Plaza.

Chris Reilly Stp & Shop lights were fixed (as of a night or two ago), but the HD section are terrible. HD is the prop owner for that section. Check my Civic website, MCR Task Force tab for addresses

Cathy Phillips The corner of that center by Family Dollar is so scary, pitch black!

Like · Reply · 34 mins

Chris Reilly [Cathy Phillips](#) Just did a quick recon of the Coram Plaza based on your comment about Family Dollar. Your visit must have been last week or so because that corner is lit up like a church right now. The Stop N Shop half of the center has been restriped recently and the lighting was fixed. It actually is well lit at night...at least adequately lit anyway. Unfortunately the Home Depot owned portion of the lot still has the inadequate sodium style lighting...and their parking stalls are still faded and narrow. Plus the bus stop area of the lot and north along Grant Smith (where the semi's are starting to be parked again) has very poor and inadequate lighting. Will reach out to them on Monday once again along with contacting Leg. Sarah Anker. We have noticed that the homeless camps are once again popping up behind the gas stations and the tile store by 112 & 25...and yes, the congregation is still behind the Dunkin' Donuts. Will be discussed again at our Civic Exec board meeting this week. Will keep y'all posted.
